Records

### *How to Set up Your Patient Portal*

1. If you have not received an email with your portal information, call your care center to request one.
2. Once you receive your login information follow the link and instructions to create your portal account.
3. If desired, after your account is created, follow the steps below to add the app to your Smartphone.

### *How to Set up the healow™ smartphone app*

1. Download the healow™ app from App Store (iPhone) or Google Play (Android Phone)
2. Enter patient details and practice code: **AHGECA**
3. Verify that Axia Women's Health is your practice by selecting Yes
4. Enter your portal username and password to login
5. Set up your PIN to securely access your health records
